

Hello , you are the colleague we are looking for ?

Senior Project Manager

The Axis CPM (Corporate Performance Management) division is well known in the Benelux Market and France and highly respected for its in-depth knowledge of FP&A, financial consolidation, and management reporting.

Axis is implementing Modelling, Analytics & AI technology such as “IBM Planning Analytics & Watson, IBM Cognos Controller, IBM Analytics” and Jedox.

Axis has created vertical standard FP&A applications for market segments as Hospitals, Municipalities and Industry specific which can be activated in very short timelines.

Axis develops and implements also specific compliance software as IFRS 16, IFRS 17 and ESG reporting.

Axis helps customers in Planning, Budgeting, Forecasting, Analysis and Reporting since more than 30 years and is looking for new colleagues to strengthen their team in a growing market.

Your role

We are looking for a senior project manager who can help in managing CPM implementation projects and operational business activities.

You will manage implementation projects on FP&A and reporting processes and contribute to the internal Axis operational processes as consultants invoicing , planning & forecasting, reporting and other.

You will be surrounded by experienced colleagues that will collaborate with you to work on CPM projects at the customers’ premises or at our offices. You will get the opportunity to get acquainted with various businesses and industries combining web development and CPM process knowledge.

Hello , you are the colleague we are looking for ?

Your Responsibilities

- Project Management on CPM projects or similar. As project manager you will steer the full project starting with definition of the statement of work to final acceptance of the project.
- Assist consultants during the implementation in content, analysis, development, testing ,
- Report to Axis management on project progress, risks, project budget and variances
- Advise the customer in best practices for implementation of CPM concepts
- Safeguard project KPI's in order to obtain success
- Contribute to the company strategy and objectives
- Prepare project management reports and steering committees
- Keep up to date with latest versions of the leading software IBM Analytics, IBM PA and Jedox.
- Conduct knowledge transfer towards our clients and training of end-users, including sharing best practices
- Support, Coach and Assist customers in usage and change when rolling out the CPM process by using best in class technology IBM PA and Jedox
- Inform and share knowledge with functional team members

Required Skills

In our new colleague, we seek for someone who is familiar with implementation of CPM processes or similar and can steer a team of project consultants. More specific we describe our ideal candidate as following:

- You have a university degree, or you have recently graduated as a master's in information management, applied economics, information Systems Engineering or comparable by experience.
- Able to work independently and deliver against deadlines.
- Creative, pro-active, eager to learn, self-develop and out of the box thinking
- Excellent communication and writing skills in English and in French or Dutch.
- Customer centric
- Work in a secure, thorough, efficient, and comprehensive manner.
- Assets are:
 - Experience in project management of planning, budgeting and reporting applications
 - Prince 2 certified
 - Experience with Jira or similar project management software
 - Good to excellent knowledge of MS office 365 and more specific MS Excel

Hello , you are the colleague we are looking for ?

Our commitment to you

Besides a comprehensive compensation package that is beyond industry standards, working at Axis Group will allow you to develop and extend your knowledge and network in application development related to Corporate Performance Management, Data Management and BI, Advanced Analytics and Big Data. You will find yourself surrounded by young and senior colleagues in the Benelux CPM & BI landscape. You will get the opportunity to enrich your competences in CPM application development in different vertical segments as hospitals, municipalities, and industry specific as energy, production and construction which will allow you to use your skills and knowledge to your full extent. You will start with a formal training and can work on internal and external projects guided by senior colleagues, which will provide you the opportunity to obtain new heights in your personal and professional development.

We offer a balance of office and home working in a fun-workplace where team play is key. The number of days in the office is subordinated to engagement, involvement, pro-activity, and trust. We are environmental conscience and act as such in offering transport and facilities. We enjoy working as well as fun making. We are pragmatic, transparent and sales of our own IP solutions in CPM is expanding rapidly .
